

PROJECT > Construction of New Stadium

Lincoln Financial Field, Philadelphia, PA

PROJECT DURATION:

19 months

PROJECT COMPLETION

DATE: August 2004

PROJECT DESCRIPTION:

Dan Lepore & Sons teamed up with The QUIKRETE® Companies in the construction of Lincoln Financial Field, in Philadelphia. Lincoln Financial Field is the home of the Philadelphia Eagles, and functions as a playing field for many different events ranging from the Manchester United v. FC Barcelona soccer match to the NCAA Men's Lacrosse finals. QUIKRETE® had previously teamed up with the masonry contractor Dan Lepore & Sons in the construction of the Philadelphia Phillies Stadium.

For the Lincoln Financial Field project, QUIKRETE® supplied Dan Lepore & Sons with Type "S" Mortar, Core-Fill Grout (Fine) and approximately 370 bags of mortar color, custom blended to match the exact specifications of the project. QUIKRETE® has been involved with many different stadium construction and renovation projects. Our 80 different manufacturing locations ensures quick and efficient product delivery, essential to time large scale projects such as stadiums where many elements must meet a very time sensitive schedule.
