

PROJECT > Views at Clarendon

Mortar & Core-Fill Grout
Arlington, VA

PROJECT DESCRIPTION:

Views at Clarendon, located in Arlington, VA, consists of eight stories of apartment homes atop the two story First Baptist Church of Clarendon and the new construction of a new sanctuary and under ground parking structure.

The MTFA architecture design preserved the church's steeple, a Clarendon landmark. Of the 116 apartment homes, 70 have been deemed affordable units with 12 designated for very low income households.

The Views at Clarendon is designated as a Smart Growth Project by the Washington Smart Growth Alliance and is expected to achieve a LEED Silver Certification for energy efficiency and sustainability.

QUIKRETE® provided all the colored and gray structural Type S

and non-structural Type N mortars, core-fill grouts and non-shrink grout on the project.

QUIKRETE® mortars exceed the requirements of ASTM C 270 specifications and are available in 80 lb bags and 3,000 lb bulk bags with silo delivery systems.
