## ICE MELTING PRODUCTS

ROCK SALT (No. 9002), ICE DEVIL (No. 9004-79, -80 -82), ICE DEVIL EF (No. 9004-83)  
ICE DEVIL EF PLUS SAND (No. 9004-87)

**DIVISION 3**

Maintenance of Concrete  
03 01 00

### PRODUCT DESCRIPTION

QUIKRETE® Ice melting products depress the freezing point of ice or snow and turn the mixture into a liquid or semi-liquid slush for easy removal.

### PRODUCT USE

Because of their great effectiveness, QUIKRETE® Ice melting products can be used sparingly. Spread at the rate of 1/4 lb. (115 g) per square yard (0.8 m<sup>2</sup>) in an even manner.

Benefits:

- Quickly removes snow and ice from driveways, walks, steps, and other walkways.
- Increased traction on snow and ice.

To minimize the impact on concrete, ice or snow should be removed promptly and any excess deicer brushed away after the concrete has been cleared. Damage to improperly constructed concrete typically occurs due to expansive pressure during repeated freezing and thawing cycles

### PRECAUTIONS

Ice melting agents may be harmful when used excessively or repeatedly on concrete surfaces. Particularly vulnerable are poorly constructed porous concrete and mortar joints between brick or flagstone. Ice melting agents are not design or intended to remove all traces of ice or snow. Melting agents can be harmful to vegetation. Keep them away from shrubs, trees, flower beds and grass.
