

# PROJECT > Route 78 New Jersey DOT Structural Bridge Deck Repair

New Jersey

## PROJECT START DATE:

May 9, 2007

## PROJECT COMPLETION

DATE: May 17, 2007

## PROJECT DESCRIPTION:

Full depth structural bridge deck repair at 8 to 10 inches application thickness. Polymer-Modified Extended Set formulation was used to enhance structural concrete density and eliminate cold joint full depth repair applications.

## CONTRACTOR:

IEW
