

Build Beautiful Stucco Walls with QUIKWALL[®]

Benefits and Features

- Reinforced with Alkali Resistant Fiberglass Fibers for constructing dry-stack concrete block walls...without mortar!
- Single one-coat application provides structural strength and textured finish
- Provides greater flexural strength and ultimate load strength than conventional mortar construction
- Waterproofs, strengthens & decorates existing unpainted block walls
- Add color to your wall with 10 oz. QUIKRETE[®] Stucco & Mortar Colors. (Available in 20 standard colors)

Coverage:
50 lb. bag will cover 50 sq./ft. at 1/8" thickness

QUIKWALL[®]					
Surface Bonding Cement
