

NEW!

QUIKRETE

Mix & Use Right Out of The Pouch!

ZIP & MIX Repair Mortar

Polymer modified, rapid setting, high strength repair material designed for vertical, overhead and horizontal concrete and masonry repairs.

- For structural concrete and masonry repairs 1/8" to 2" deep
- Can be sculpted to match contour of existing concrete surface
- No Bonding Adhesive required

Working Time

20 Minutes

Compressive Strength

4500 psi @ 28 days

Mix in 4 easy steps:

1. Unzip closure and break protective seal.
2. Add 10 oz (1.25 cups/300 ml) of clean water.
3. Squeeze pouch to remove excess air, then zip pouch closed and knead the bag for 3 minutes until a lump free consistency is achieved.
4. Un-zip pouch and apply Repair Mortar.

- Stand up pouch with zip closure
- Plastic application tool included
- Full color graphics
