HardScapes

by **QUIKRETE**

Landscape Rock

Create beautiful patios, walking paths & gardens with natural stone, pebbles and rock.

BENEFITS

- Controls Erosion
- Resists Decay
- Light Reflecting

INSTRUCTIONS

1. Stake out and measure total square footage of project area
2. Excavate area 2-3" deep
3. Apply landscape material to entire area for weed prevention
4. Spread decorative rock, pebbles or stone to area

HardScapes Rock Calculator

Toda Calculadora de Roca de Propósito

Square Feet/Pies cuadrados (M ²)	50 (4.6)	100 (9.3)	200 (18.6)
--	-------------	--------------	---------------

Number of .5 cubic ft (.014 cubic m) Bags per square feet
El número de .5 pies cúbicos (.014 metros cúbicos) empaquet por pies cuadrados

2" (50 mm) thick/grueso	17	34	67
3" (75 mm) thick/grueso	25	50	100
4" (100 mm) thick/grueso	34	67	134
6" (150 mm) thick/grueso	50	100	200
