

Crack Resistant Concrete Mix/Mezcla de Concreto Resistente al Agrietamiento

Commercial grade concrete mix designed to reduce cracks as a result of drying shrinkage
- Offers greater impact resistance and air entraining agents for improved freeze/thaw durability

Use for:

- Driveways
- Foundations/Footings
- Patios
- Sidewalks

HOW MUCH TO USE

Square Feet		2	5	10	25	50	100	Depth of Hole	Post Dia. 3" Hole Dia. 9"	Post Dia. 4" Post Dia. 12"
4" Thick	Number of 80 lb. bags	1	3	5	13	25	50			
6" Thick	Number of 80 lb. bags	2	4	8	19	38	75	24	2	3
								30	2	3
								36	2	4
								42	3	4
								48	3	5

The hole diameter should be 3 times the post diameter.
The depth of the post hole should be one-half of the above-ground post height.

Number of bags required to pour a slab. All yields are approximate and do not allow for waste or uneven subgrade, etc.
Meets the requirements of ASTM C387.
