

PROJECT > 57th Avenue Water Erosion Prevention

QUIKRETE® Rip Rap - Scrim
Hialeah, FL

PROJECT DESCRIPTION:

QUIKRETE® Rip Rap - Scrim was used for canal walk erosion control along the 57th Avenue canal in the Miami suburb of Hialeah, FL. MCM contractors placed the Rip Rap bags in a running bond pattern more than 8' high.

QUIKRETE® Rip Rap - Scrim is a high strength, 5000 PSI blend of sand and cement packaged in a fiber netting reinforced, biodegradable paper bag. Rip Rap has the ability to set in a water immersion to ambient moisture alone. To improve the wall's vertical stability 3/8" rebar staples were driven into the bags alternating direction from tier to tier.

CONTRACTOR: MCM Contractors

QUIKRETE® PRODUCTS:

- 80 lb Rip Rap – Scrim: 41,000 bags

PROJECT START DATE:

June 2014

PROJECT COMPLETION DATE:

December 2014
