Concrete Tile Underlayment
Miami, Florida

PROJECT DESCRIPTION:

QUIKRETE® Sand Topping Mix was used to set 12,500 sq. ft. of exterior concrete tile.

The polished concrete tiles, measuring 3 ft. X 4 ft. X 2 in., were set using 2"-3" of QUIKRETE® Sand Topping Mix as the underlayment base.

QUIKRETE® Sand Topping Mix achieves a compressive strength of 3,000 psi (20.7 MPa) at 7 days and 5,000 psi (34.5 MPa) at 29 days.

CONTRACTOR: Titan Stone

PROJECT START DATE:

March 2009

PROJECT COMPLETION DATE:

April 2010

QUIKRETE® PRODUCTS USED:

- 80 lb Sand Topping Mix : 4,150 bags
