FLOATING CONCRETE GHOST TABLE WINS QUIKRETE® ONE BAG WONDER 2.0
Annual Contest Reveals a Variety of Creative Project Designs and Techniques

ATLANTA (July 25, 2017) – Joey Eddington, an industrial design student at Brigham Young University, recently won the QUIKRETE® One Bag Wonder 2.0 contest with his floating concrete ghost table. Bernie Solo’s mid-century lamp and Roger Young’s outdoor fountain finished second and third, respectively, in the annual challenge to create unique, high-quality do-it-yourself projects using only one bag any QUIKRETE® concrete mix. Photos and descriptions of all the submitted projects are available at QUIKRETE® One Bag Wonder 2.0.

“The project ideas people brought to life with just one bag of QUIKRETE® through this contest is truly amazing,” said Frank Owens, Vice President of Marketing for The QUIKRETE® Companies. “The creativity, craftsmanship and quality of all the submissions really made selecting the winners difficult, but I think the design, technical execution and finished product of the top three helped them narrowly edge out some of the other competitors.”

QUIKRETE® One Bag Wonder 2.0 was judged by members of QUIKRETE®, the leading manufacturer of packaged concrete, HomeMade Modern, an online resource for smart modern home furnishing ideas, and the Home Projects Council, a think tank of home improvement experts. First place received $2,500, second place received $1,500 and third place received $500. Information about QUIKRETE® is available by visiting QUIKRETE.com, Facebook, Twitter, Pinterest and YouTube.

The QUIKRETE® Companies
The QUIKRETE® Companies is the largest manufacturer of packaged concrete and cement mixes in the U.S. and Canada, and an innovative leader in the commercial building and home improvement industries.
