**MORTAR REPAIR**

**PRODUCT No. 8620**

**PRODUCT DESCRIPTION**
QUIKRETE® Mortar Repair is a sanded acrylic formula that adheres to brick, block, stone, and concrete surfaces.

**PRODUCT USE**
QUIKRETE® Mortar Repair is a water-resistant acrylic formula that remains relatively flexible. It is textured and colored to give the appearance of masonry mortar. The product has minimal shrinkage, excellent adhesion, and is non-flammable. The unique square opening is ideal for filling 3/8” mortar joints.

**SIZES**
- QUIKRETE® Mortar Repair - 10.1 oz (296 ml) caulking tubes and 5.5 oz (163 ml) squeeze tubes

**YIELD**
- Each 10.1 fl oz. (296 ml) tube of QUIKRETE® Mortar Repair will fill a 3/8”x 3/8” (10 mm x 10 mm) mortar joint 12 ft. (3.7 M) long.

**INSTALLATION**
Use to seal cracks and mortar joints in masonry walls.
- Joints must be clean, dry, and free of grease, dust, or loose particles. Remove all loose mortar from the joint before filling.
- Puncture seal inside the applicator tip. Use cartridge in standard caulking gun.
- Apply by pushing cartridge tip over surface and forcing bead of caulking into the opening. Apply no thicker than 3/8” (9 mm) in one application.
- Tip of applicator acts as a tool to smooth the surface.
- Excess can be wiped off with a damp cloth.
- Can be painted after 24 hr. Use latex paints only.

**PRECAUTIONS**
- Do not apply if rain threatens or is predicted within 12 hours. Not for use as a structural repair of badly damaged walls. Protect from freezing. Store between 35°F (2°C) and 100°F (38°C). Air and surface temperature should be above 40°F (4°C) for proper application.
- Do not use to fill control / expansion joints.
- Do not apply where temperatures may reach 140°F (60°C) or higher (fireplaces, electric wires, etc.)

**CAUTION**
May cause eye, skin, and respiratory irritation. Avoid breathing vapor and contact with eyes, skin, and clothing. Use only with adequate ventilation. Ingestion may cause irritation.
